

Java Klassen für AWT-Steuerelemente

Interface Es müssen <u>alle</u> Methoden implementiert werden.	Adapterklasse Es müssen <u>nicht alle</u> Methoden überschrieben werden.	Methoden
FocusListener	FocusAdapter	focusGained, focusLost
KeyListener	KeyAdapter	keyPressed, keyReleased, keyTyped
MouseListener	MouseAdapter	mouseEntered, mousePressed, mouseReleased, mouseClicked, mouseExited
MouseMotionListener	MouseMotionAdapter	mouseDragged, mouseMoved
MouseWheelListener	-	mouseWheelMoved
ActionListener	-	actionPerformed
ItemListener	-	itemStateChanged
AdjustmentListener	-	adjustmentValueChanged
TextListener	-	textValueChanged
WindowListener	WindowAdapter	windowClosing, ...
