

Svelte: Writable

store.js

```
import { writable } from 'svelte/store';
export const count = writable(0);
```

KomponenteLesen.svelte

```
<script>
  import { count } from './stores.js';
</script>
```

```
<div>count: { $count }</div>
```

KomponenteSchreiben1.svelte

```
<script>
  import { count } from './stores.js';

  function increment() {
    count.update((n) => n + 1);
  }
</script>
```

KomponenteSchreiben2.svelte

```
<script>
  import { count } from './stores.js';

  function reset() {
    count.set(0);
  }
</script>
```
